

Est-cela... ça lui ressemble.

#### RF Choke - 2.5 mH, Hammond

- Impregnated with a moisture and fungus resistant varnish.
- 1-1/2" long axial leads.
- Wound for low distributed capacity by using 3-Pi windings.
- Inductance: 2.5 mH, 5% tolerance
- Q (min): 106
- Test Frequency (KHz): 250
- Self Resonant Min. Frequency (MHz): 1.3
- Maximum DC current resistance (Ohms): 9
- Maximum DC current (mA): 160
- Coil diameter (in): .469
- Core Length (in): .875
- Core Material: Ferrite

RoHS Compliant
